1. Vlad Stirbu, Majid Haghparast, Muhammad Waseem, Niraj Ramesh Dayama & Tommi Mikkonen (2023). **Full-stack quantum software in practice: ecosystem, stakeholders and challenges**. *IEEE International Conference on Quantum Computing and Engineering* 177-180
2. Niraj Ramesh Dayama, Haghparast, Majid & Stirbu, Vlad (2023). **Problem Decomposition to Leverage Quantum Computing for Optimization Problems**. *International Conference on Product-Focused Software Process Improvement*, 119--124
3. Niraj Ramesh Dayama, Shiripour, M., Oulasvirta, A., Ivanko, E., & Karrenbauer, A. (2021). **Foraging-based optimization of menu systems**. *International Journal of Human-Computer Studies*, 151. 3
4. Shiripour, M., Dayama, N., & Oulasvirta, A. (2021). **Grid-based Genetic Operators for Graphical Layout Generation**. *Proceedings of the ACM on Human-Computer Interaction*, 5(EICS), 1–30. 2
5. Niraj Ramesh Dayama, Santala, S., Bruckner, L., Todi, K., Du, J., & Oulasvirta, A. (2021). **Interactive layout transfer**. In *26th International Conference on Intelligent User Interfaces* (pp. 70–80). 2
6. Laine, M., Nakajima, A., Dayama, N., & Oulasvirta, A. (2020). **Layout as a service (LaaS): A service platform for self-optimizing web layouts**. In *International Conference on Web Engineering* (pp. 19–26). 2
7. Niraj Ramesh Dayama, Todi, K., Saarelainen, T., & Oulasvirta, A. (2020). **Grids: Interactive layout design with integer programming**. In *Proceedings of the 2020 CHI Conference on Human Factors in Computing Systems* (pp. 1–13). 2
8. Oulasvirta, A., Dayama, N., Shiripour, M., John, M., & Karrenbauer, A. (2020). **Combinatorial optimization of graphical user interface designs**. *Proceedings of the IEEE*, 108(3), 434–464. 2
9. Mokhtar, H., Krishnamoorthy, M., Dayama, N., & Kumar, P. (2020). **New approaches for solving the convoy movement problem**. *Transportation research part E: logistics and transportation review*, 133, 101802. 2
10. Leiva, L., Xue, Y., Bansal, A., Tavakoli, H., Koroğlu, T., Du, J., Dayama, N., & Oulasvirta, A. (2020). **Understanding visual saliency in mobile user interfaces**. In *22nd International conference on human-computer interaction with mobile devices and services* (pp. 1–12). 2
11. Freire, M., Potts, D., Dayama, N., Oulasvirta, A., & Di Francesco, M. (2019). **Foraging-based optimization of pervasive displays**. *Pervasive and Mobile Computing*, 55, 45–58. 2
12. Kaul, A., Aggarwal, S., Gupta, A., Dayama, N., Krishnamoorthy, M., & Jha, P. (2018). **Optimal advertising on a two-dimensional web banner**. *International Journal of System Assurance Engineering and Management*, 9(1), 306–311. 1

13. Niraj Ramesh Dayama, Krishnamoorthy, M., & Ernst, A. (2018). **Efficient Models, Formulations and Algorithms for Some Variants of Fixed Interval Scheduling Problems.** In *Data and Decision Sciences in Action* (pp. 43–69). Springer (Lecture Notes in Management and Industrial Engineering). 1
14. Park, S., Gebhardt, C., Rädle, R., Feit, A., Vrzakova, H., Dayama, N., Yeo, H.S., Klokmoose, C., Quigley, A., Oulasvirta, A., & others (2018). **Adam: Adapting multi-user interfaces for collaborative environments in real-time.** In *Proceedings of the 2018 CHI conference on human factors in computing systems* (pp. 1–14). 2
15. Niraj Ramesh Dayama, Ernst, A., Krishnamoorthy, M., Narayanan, V., & Rangaraj, N. (2017). **New models and algorithms for the container stack rearrangement problem by yard cranes in maritime ports.** *EURO Journal on Transp. and Logistics*, 6(4), 307–348. 1
16. Niraj Ramesh Dayama, & Krishnamoorthy, M. (2016). **Facility location and routing decisions for a food delivery network.** In *2016 IEEE International Conference on Industrial Engineering and Engineering Management (IEEM)* (pp. 94–98). 0
17. Niraj Ramesh Dayama, Krishnamoorthy, M., Ernst, A., Rangaraj, N., & Narayanan, V. (2015). **History-dependent scheduling: Models and algorithms for scheduling with general precedence and sequence dependence.** *Computers & Operations Research*, 64, 245–261. 1
18. Niraj Ramesh Dayama, Krishnamoorthy, M., Ernst, A., Narayanan, V., & Rangaraj, N. (2014). **Approaches for solving the container stacking problem with route distance minimization and stack rearrangement considerations.** *Computers & operations research*, 52, 68–83. 1
19. Bhamare, D., Gumaste, A., Krishnamoorthy, M., & Dayama, N. (2014). **On the Backbone VLAN Identifier (BVID) Allocation in 802.1 Qay Provider Backbone Bridged-Traffic Engineered Networks.** *IEEE Transactions on Network and Service Mgmt*, 11(2), 172–187. 1
20. Niraj Ramesh Dayama, Andreas Ernst, & Mohan Krishnamoorthy (2013). **Hamiltonian path approach to variable-interval scheduling problems with heterogeneous resources..** In *International Congress on Modelling and Simulation*. 0
21. Niraj Ramesh Dayama, Andreas Ernst, & Mohan Krishnamoorthy (2013). **Scheduling of heterogeneous resources for fixed tasks with sequence dependence.** In *Recent Advances in Operations Research*. 1
22. Niraj Ramesh Dayama & Kulkarni, K. (2012). **Approaches and Mathematical Models for Robust Solutions to Optimization Problems with Stochastic Problem Data Instances.** In *Combinatorial Algorithms* (pp. 76–80). 1
23. Niraj Ramesh Dayama & Joshi, A. (2006). **Pseudorandom Point Generation Technique In Finite Point-Set Method Using Statistical Methods: A Case Study.** In *International Congress on Computational Mech and Simulation*. 0

Please note: There are gaps in the publication timeline between 2007 – 2011 because the author was working with a professional IT consultancy organization during this time period; the concerned employer did not encourage publication of the outcomes achieved during that work.
